

# Eyeliner Aftercare

- **Ice the area for 10-20 minutes at a time for at least 24 hours. This will reduce swelling and aid in healing**
- **Wait 24 hours to shower and then do not expose area to direct pressure of shower head when you do shower, for 10 days.**

## Day 1 and Day 2

With clean hands wash lashes ONE time/day with the spray soap provided. Spray the liner, gently tsp soap into lash line, splash off soap and blot lids dry. Lastly apply a THIN layer of Vaseline by blotting it into the liner with a clean finger.

## Day 3 - Day 5

Continue washing the eyelid, once daily, as directed above but discontinue Afterinked. (Only apply Vaseline day and day 2)

### **AVOID**

- No picking, scrubbing, itching, allow any flaking to come of on its own
- No mascara, eyeliner, eyeshadow or concealer near the lash line for 7 days
- Do not soak in bath, swimming pool, etc. for 10 days
- Do not tan/sunbathe for 10 days
- No harsh chemicals, retinols, eye creams, etc. on are for 10 days
